ultra-light**

DIVING EQUIPMENT

who we are

AND WHAT WE DO

We're divers, who know just what it takes when it comes to lining up the perfect underwater shot: great technique paired with and high quality high tech gear.

That's why over the last 15 years we've set out to design top quality equipment:

- **actioncam housings** - GoPRO, Insta360 Ace pro, Osmo - with a depth rating of up to 250m, or even higher, with customised solutions on request
- **moby and buckle kit**, the Universal support for fixing your camera or camcorder to your DPV scooter
- **accessories** in carbon fibre with rapid release arms (arm mechanisms), which slot in and out quickly and fit all housing models, easily and functionally.

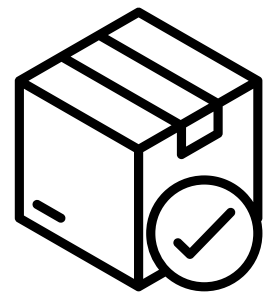

Technology, innovation and design inspire us to come up with smart solutions

- **long-lasting tools:** built to withstand even the harshest saline conditions, thanks to the special anodizing 40-micron coating designed to combat wear and tear no matter how deep your dive
- **easy-carry:** strong materials with a light portable design.

Carbonarm
distributors can
benefit from
several
competitive
advantages when
it comes to sales
and marketing

no minimum orders

We won't tie you down with a minimum order meaning you won't need to stock up on goods: what's more, delivery times are super-fast, so you can order as and when you need the gear.

customer support

Our products are all easy to use and require no special assistance, but for anyone who needs a little extra help we are always happy to answer any queries and give additional support.

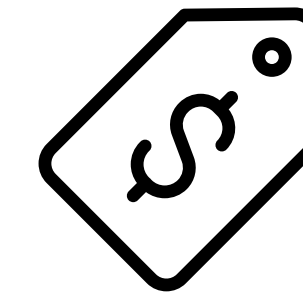

rapid delivery

Delivery times may vary in keeping with each different shipping destination. We can prepare and send orders within 24 hours of receipt. Most customers will receive goods it within 48 hours*

full range

Our comprehensive, innovative range of designs are suitable for both professional and amateur divers.

clear fixed prices

All of our dealers worldwide charge the same price for the same product. We like to work well, so we aim to guarantee clear fixed prices.

quality

Broaden your range of goods with super-reliable equipment that's always great value for money. We take quality seriously making this our top priority

*delivery time may vary due to causes beyond our control

Why do our customers all love Carbonarm?

DIVERS AND PHOTOGRAPHERS KNOW THEY CAN COUNT ON US FOR QUALITY GOODS, BUILT WITH PASSION AND GENUINE EXPERTISE.

We've always been **driven by the sea** which we know and love. We put the needs of the everyone who uses our products first, using our expertise and deep knowledge of diving and photography to design high performance quality goods.

But we don't only work alone, one of our greatest strengths is our **ongoing dialogue with seasoned divers** who help us test and select only the best most suitable materials.

Our carbon fibre tubes:

- use only carbon fibre that has been certified and made in Italy
- offer clean precision slots thanks to the computerised cutting
- are polymerised in a multi-probe, PLC-controlled environment
- are fully tested with product trials
- look great with their stylish Italian Design
